IPT Annual Lunch 2018

In the occasion of Labor Day, IPT Group organized on Saturday April 28 its annual lunch uniting all employees at Orizon-Byblos, in the presence of the Chairman Mr. Michel Issa, the CEO Dr. Toni Issa, and the Commercial Director Mr. Zakhia Issa. The gathering was held in appreciation of the dedication, enthusiasm, cooperation and hard work of the employees, and featured a band playing live music and many surprises. Again this year, trophies were distributed to employees with more than 25 years of commitment at IPT, and certificates of appreciation to the achievers of the year. Mrs. Paula El Hayeck, Administration Director, addressed a speech to the attendees thanking them for their efforts. She said: "We are here today to celebrate another successful year. You are our true capital and the added-value of IPT". She confirmed that the company's success is directly tied to the efforts of the team.

At IPT, Success is not created by one person but by a team that comes together as one. [Read more](#)

Corporate Social Responsibility

IPT Takes Part in Operation Big Blue's Beach Clean-Up

On Sunday April 29, IPT team joined the beach clean-up campaign organized by the Operation Big Blue NGO and the Lebanese Diving center, as part of the mass clean-up event along the coast. Always caring about the community and surroundings, IPT team's focus was on cleaning Amchit Boulevard's beach neighboring IPT terminals, in collaboration with Amchit Municipality. This initiative comes for the second year in a row, where IPT team members actively participated in cleaning the beach of Amchit in 2017. [Read more](#)

Here For You

Happy Labor Day 2018

[IPT](#), [IPTEC](#), and [MIF](#) would like to wish everyone a Happy Labor Day! Work is rewarding in many ways. Labor Day is a well-deserved tribute for those who work so hard, enjoy it.

Energy Sustainability

The World's Smallest Hydroponic Modules in Lebanon

Supported by IPTEC, Agrytech Hackathon aims to attract the best startups in the agri-food sector and support them to expand their ideas into successful businesses with a global impact. Joining the Agrytech Hackathon, LifeLab provides the world's smallest turnkey vertical hydroponic modules. These modules connect to each other and then ultimately to an industrial grade automation system that runs the entire grow process with very little human intervention. [Read more](#)
