On Friday September 15, IPT truck drivers received at the Ministry of Energy and Water certifications of achievement in "Safety Measures During the Transportation of Petroleum Products

Energy Tip

Will "Natural Gas" Be The Alternative Fuel in Lebanon?

Lebanon has big potential in using natural gas as a clean alternative fuel in different sectors especially in transportation. Studies indicate the presence of large quantities of natural gas reserves offshore that can boost the Lebanese economy once exploited due to different export options to neighboring countries, in addition to the local market consumption.
