More than 170 Students Drawings at the IPTEC-Fabriano Exhibition 2017

Under the patronage and presence of His Excellency the Minister of Culture Dr. Ghattas Khoury, IPT Energy Center (IPTEC) and Fabriano Lebanon launched officially on the 3rd of November 2017, at USJ, the 2nd Drawing Exhibition under the theme "**Walk & Bike More to Improve Your Health and the Environment**". After the national anthem, The Minister Dr. Khoury, President of IPTEC Dr. Toni Issa and Fabriano Director in Lebanon Mr. Jean Claude Nahas, - surrounded by winning students and their families - watched a documentary showing IPTEC and Fabriano's collaboration since 2015, especially the several workshops and schools visits to introduce the **eco-driving** concept to more than 100.000 students from all over Lebanon. Showcasing more than 170 winning drawings in Fabriano Drawing Contest 2015-2016, this exhibition comes after the success of the first exhibition held at the UNESCO in 2016, under the theme "**Be The Eco-Drivers of Tomorrow**". In line with the above, IPTEC collaborated this year with Beirut By Bike in a draw that took place during the event to offer bicycles, free bike rental coupons, tire inflators, posters and many other gifts. Energy-Saving Facts

1- Using a solar water heater can reduce your energy bill by 80% and prevent up to 1,800 kg of carbon dioxide from entering the atmosphere. 2- In winter heating can account for over 30% of your bill. Set your thermostat between 18 and 20°C. Every degree above 20 can add 10% to your heating bill. In summer, set your thermostat to 26 degrees or above. 3- The CO₂ saved by replacing 1m² of single glazing by low-E double glazing represents 91 kg CO₂ per year. The CO₂ emitted during production of the glass is thus offset after only 3.5 months use. Stay updated on [IPTEC Facebook page](#) for more tips on energy sustainability.

WEEKLY FUEL PRICES

Local Fuel Prices 8/11/2017

Quantum 95	24,000 L.L.	+300
Quantum 98	24,600 L.L.	+300
