### **Launching of the National Campaign for Air Pollution Reduction in Lebanon through Efficient Use in Land Transportation**

Supported by ESCWA, the Lebanese Ministry of Environment and the UN Development Program (UNDP), IPT Energy Centre (IPTEC) launched today the "National Campaign for Air Pollution Reduction in Lebanon through Efficient Use in Land Transportation". The event was held under the patronage of Lebanese Minister of Environment Nazem Khoury at the Ministry premises. In addition to the minister, speakers included Roula Majdalani, ESCWA Director of Sustainable Development and Productivity Division (SDPD) and IPTEC President Toni Issa. IPTEC is a research centre specialized in scientific studies on energy, oil and gas in Lebanon.
