Mountain Mudd Espresso drive-thru, kiosks are changing business as we know it!

## **THE DRIVE - THRU CONCEPT IS FUN, FRESH, AND DIFFERENT.**

When considering if you think a drive-thru coffee franchise is right for you, bear in mind that coffee is now the number one beverage of choice in the world. Additionally, 53% of coffee customers get their coffee “to go”, making drive-thru coffee the fastest growing segment of the specialty coffee industry.

There are various advantages to acquiring a Mountain Mudd franchise: this low investment business gives you the brand, the business model, and the drive-thru coffee kiosks manufactured in the US.

In addition, Mountain Mudd offers fantastic gourmet coffee, exclusively and lovingly roasted according to traditional and labor-intensive methods, to guarantee pleasure and convenience for customers.

To top that, a Mountain Mudd investment is a smart one, offering a business that involves low overheads, minimal initial investment, a limited number of employees, and simple operation.

Our full training program covers equipment operation, drink preparation, customer service, health & sanitation procedures, and training techniques.
