Antifreeze GLACELF from ELF: Long-Lasting Protection!

GLACELF is 100% concentrate & can be diluted with demineralized water, so for maximum protection against-freezing, product must be diluted up to 50%. [Read more](#)

#Energy_Library

Abu Dhabi National Oil Company (Adnoc) has signed an agreement with Proman, one of the world's leading producers of methanol, to develop a UAE-first world-scale methanol production facility at the Ta'Ziz Industrial Chemicals Zone in Ruwais, Abu Dhabi. Under the terms of the agreement, Abu Dhabi Chemicals Derivatives Company (Ta'Ziz) and Proman will construct a natural gas to methanol facility with an anticipated annual capacity of up to 1.8 million tons per annum. The facility will meet growing domestic and international demand for this clean and versatile chemical commodity which is gaining momentum as a lower-emission fuel alongside existing uses spanning industrial products. The project is subject to relevant regulatory approvals

✓ SAVE ENERGY EVERYDAY

Myth: You can save energy by cooking with your microwave.

Fact: Microwaves are quicker, use less energy and are especially useful in the summer because they don't contribute extra heat to the kitchen, forcing your air conditioner to work harder than it has to.
