The novel COVID-19 has hit the world with the biggest health threat of the past century. Stay SMART Is the best practice to stay safe, the key to stop COVID as per Harvard School of Public Health, for the "Harvard Healthy Buildings Program".

Because we are all responsible too, here is a reminder on what we can do to help **#FlattenTheCurve** and **#WinTheBattle** against the virus:

- Continue to practice COVID-19 precautions, such as: stay home, refresh indoor areas, hand-washing, when out mask-wearing and keep physical distancing, and avoid groups.
- Stay in touch with local health authorities, who can provide information if COVID-19 cases begin to increase in your city or town.
- Make sure your household maintains 2 weeks' worth of food, prescription medicines... [Read more](#)

**Act SMART. Stay Safe!**

### 2021 Oil and Gas Industry Outlook: (Exploring oil and gas trends and impact of COVID-19)

Source: Deloitte

The oil and gas industry is used to the highs and lows of economic cycles. The downturn caused by COVID-19, however, is unlike any other. With the survival of many companies at risk, coupled with a longer-term decline in petroleum demand, the next decade could look very different for the oil and gas market. Explore what this year may look like in our 2021 outlook. [Read more](#)
