

All About "IPT Fuel Cards"

Convenient within reach, "IPT Fuel Cards" are the perfect fueling solution for your everyday fueling habits. These cards allow you to control your fuel expenditure and save time. So how to get, activate and use your "IPT Prepaid Fuel Card" or "IPT Gift Card" at IPT Stations? Find out by watching this short [video](#) or by following the below steps:

- Order your card by calling **78- 822822** or by visiting IPT website and filling the [application form](#).
- Get your card either from IPT Headquarters or from the nearest [IPT Station](#)
- Inform the station attendant about your first use so he activates your card
- Choose a PIN code from 4 digits and enter it on the POS machine
- Swipe your card to pay and accumulate points

*For security reasons, you will have to enter your PIN code upon every use. Don't hesitate to call us for further info: **78- 822822***

Community Enrichment

IPT Lighting Byblos Castle In Pink To Promote "Breast Cancer Awareness"

In the occasion of the "Breast Cancer Awareness Month" and in line with its CSR Strategy in enriching the community, IPT supported the Lebanese Breast Cancer Foundation (LBCF) by taking part in "Lighting Byblos Castle In Pink" that took place on Saturday October 12, 2019. The aim of this event is to raise awareness, promote breast examination, and encourage screening mammography among Lebanese population. [Read more](#)

Corporate Social Responsibility

IPT Celebrating the Lebanese Apple Day

In the occasion of the official Lebanese Apple Day, and under the framework of its corporate social responsibility, IPT distributed apples at its service stations across Lebanon on 11 and 12 October. This initiative intends to empower apple farmers in Lebanon and show support to local production. Believing that Lebanese agriculture support the Lebanese economy... [Read more](#)

Energy Sustainability

Financing Green Gas Stations: The Gas Station of the Future

"Financing Green Gas Stations" is the topic of the presentation that was conveyed by the Head of Branch Network Division at Fransabank, Mr. Antoine Zarifeh during "The Future of Gas Station" session organized by IPT Energy Center (IPTEC) at the 10th International Beirut Energy Forum (IBEF 2019). Mr. Zarifeh went over the possible efficient solutions at a petrol station that can lead to a drastic reduction in emissions, water conservation and environmental management. He listed the several green loans that Fransabank is offering and gave an overview of the application process with all related conditions and requirements. [Read more](#)
