IPT Participates in GCNL "Multi-Stakeholder SDG Forum 2018"

IPT participated in the 2nd edition of "the Multi-Stakeholder SDG Forum" organized by GCNL (Global Compact Network Lebanon), chaired by MP Dr. Dima Jamali, on the 18th of October at the Grand Serail under the patronage of H.E. Prime Minister Saad El Hariri. This Forum followed the round table discussion that was held on the 5th of October, and is considered to be a unique opportunity and platform for all stakeholders, leaders and individuals to accelerate the SDGs in Lebanon, and work together towards the UN 17 Sustainable Development Goals and 2030 Agenda. As a member of the SDG Council and Goal Leader for SDG 7, Dr. Toni Issa, Vice Chairman of IPT Group and President of IPT Energy Center (IPTEC) participated to promote the use of Affordable & Clean Energy and shared IPT's successful experience in this field. [Read more](#)

Our Stations

IPT Strengthens its Presence in Koura District by a New Station in Kifraya

Did you know that "Kifraya" village is far different from "Kefraya" in West Bekaa? Prepare your map, because this deserves your attention.

As you are exploring Koura district, we proudly present to you our new "Merhi" station in Kifraya village- Koura. Strategically located on the main road of Kifraya at an altitude of 400 meters above sea level, our latest IPT "Merhi" station which is our 15th in the district, is now ready to serve the residents of the area there who will now have the chance to access to our top gasoline Quantum, Diesel, Elf lubricants, and car wash. [Read more](#)

Energy Sustainability

Green Strategy at IPT Stations

In the framework of our Corporate Social Responsibility, we started the implementation of a full Energy and Environmental Management Strategy (EEMS) to transform most of our stations into eco-friendly and sustainable ones, in order to enhance our energy performance and reduce the environmental impact of our operations. The green measures we adopt at our stations include, among many others, the use of Eco-friendly LED lighting that saves up to 80% of energy.
