IPT Organizes its 5th Corporate Gathering at IBEF 2018 in the presence of the Minister of Energy & Water

In the presence of H.E. Minister of Energy & Water, Cesar Abi Khalil, and the Director General of Oil, Mrs. Aurore Feghali, and as part of IBEF 2018, IPT organized its 5th "Annual Corporate Conference & Gathering" under the theme **"Towards Sustainable Gas Stations"** specified for the owners and managers of its stations network from all over Lebanon on the 27th of September 2018 at Le Royal hotel in Dbayeh. This gathering that was also attended by the President of the Board of the Lebanese Center for Energy Conservation (LCEC), Mr. Pierre Khoury, IPT Chairman, Mr. Mchel Issa, Dr. Toni Issa, Vice Chairman and CEO of IPT, as well as IPT Board members and managers, aimed at engaging stations owners more in IPT's Energy and Environmental Management Strategy. During the conference, **IPT unveiled its vision of the future sustainable, eco-friendly and advanced gas station, which will be concretized with a pilot station to be launched soon for the first time in Lebanon.** At the end of the gathering, the winners of IPT yearly "Leadership & Innovation" Competition received their trophies and awards from Minister Abi Khalil and Mrs. Feghali and board members of IPT. IPTEC Session at IBEF 2018: "Transition Towards Sustainable Land Transport"

In a complementary step to IPTEC's activities in the field of energy sustainability, and given the need to change the current transportation trend in Lebanon and move towards sustainable transportation solutions, IPTEC participated for the 4th year in a row in IBEF 2018 in a session entitled "Transition towards a Sustainable Land Transport" and organized in collaboration with the UNDP, MoEW, USEK, and PAC/Harb Electric. The session took place on the 26th of September at Le Royal Dbayeh, in the presence and participation of Dr. Toni Issa (President of IPTEC), Mr. Mchel-Ange Medlej (Advisor to the Minister, Ministry of Energy and Water, Lebanon), Mr. Edgard Chehab (Assistant Resident Representative, UNDP

Energy Sustainability

**IPTEC Session in IBEF 2018:
#DidYouKnow**

"The land transport sector in Lebanon is witnessing a fast growth and is evolving considerably, causing a heavy environmental and economic burden on the government and the population. According to a study published by the Ministry of Environment, the UNDP and IPTEC in 2016, the transport sector counted more than 1.58 million privately-owned vehicles registered in 2012, and was responsible for over 4,350 Gg CO2 emissions in 2011, 1.5 million tons of consumed fuel, and a chronic traffic congestion, which remain on the rise due to the increase in population, the inappropriate

Lebanon), Dr. Charbel Mansour (Energy Expert and University Professor, UNDP SODEL Project, Lebanon), Dr. Marc Haddad (Energy Expert in Technology Management and Policy, Lebanon), Dr. Nancy Zgheib (Head of the Chemical and Petroleum Engineering Department, USEK, Lebanon), and Eng. Wissam Mansour (Operations Manager, PAC/Harb Electric, Lebanon). [Read more](#)

Minister of Energy & Water Visits IPTec Stand @IBEF 2018

The annual gathering 2018 that brought together the IPT station owners from all over Lebanon was outstanding this year; not only because it was held within the framework of the International Beirut Energy Forum (IBEF 2018) and under the patronage of the Director General of Oil, Mrs. Aurore Feghali, but it was also culminated in the sudden and unexpected attendance of His Excellency the Minister of Energy & Water, Cesar Abi Khalil, who doesn't miss a chance to prove his strong support to IPT's responsible business practices and IPTec's initiatives in the field of energy sustainability. Following the gathering, H.E. Minister Abi Khalil visited IPTec stand... [Read more](#)

infrastructure for non-motorized vehicles (i.e. bicycle lanes), the absence of a proper public transportation system, and several gaps in the institutional and legal framework that governs the sector, among many others (old fleet, inadequate driving patterns and habits, etc...).

As a result, the transport sector in Lebanon has serious environmental and health impacts that threaten our future", says Dr. Toni Issa, President of IPT Energy Center (IPTec) and moderator of the session. [Read more](#)
