## EAA 2019

### **Energy Efficiency and Conservation**

*People use energy for transportation, cooking, heating and cooling rooms, manufacturing, lighting, entertainment, and many other uses. The choices people make about how they use energy, turn machines off when they're not using them, or choosing to buy fuel-efficient vehicles and energy-efficient appliances, affect the environment and people's lives. Energy efficiency is using technology that requires less energy to perform the same function... If you are a private sector institution, a University or Technical School, a Youth Innovation and Entrepreneurship, or a Municipality, and have successfully implemented a project that contributes in reaching energy efficiency and conservation, click [here](#) to apply before June 15 to the second edition of the **Energy Awareness Awards (EAA)** [Read more](#)*
