Training Our Baristas to Fuel Your Days the Best Way

We know that coffee is your everyday fuel and bad coffee can destroy your day, therefore our baristas are under continuous trainings in order to fuel your days the perfect way. The first training session took place on the 20th of February and the second was held on the 6th of March. **Mountain Mudd Espresso** Baristas were trained on how to prepare perfect hot beverages; they all showed interest in the

Energy Sustainability

Schools and Universities Role in Promoting a Sustainable Future

Universities and technical schools have a responsibility to be key drivers for better change in Lebanon, and key references to follow for a better future. Therefore they play an important role in educating and implementing programs or projects in order to reduce their energy usage and greenhouse gas emissions. How?

- through increasing energy efficiency by installing for example a properly designed and maintained ventilation system to draw in fresh outside air
- through relying on renewable energy sources by installing solar systems... [Read more](#)

training topics and techniques and participated actively. [Read more](#)
