

IPT e-Vouchers: First Introduced by IPT

The advertisement features a hand holding a smartphone displaying an IPT e-voucher with a large serial number '5248975230'. In the top left corner, there is a QR code with the text 'SCAN FOR MORE' below it. The background shows a gas station canopy. The text 'IPT E-VOUCHER' is prominently displayed in blue, followed by 'ELECTRONIC VOUCHERS FOR CORPORATE & INDIVIDUALS'. A button labeled 'Click for more details' is in the bottom right, along with the phone number '78 822 822' and the email 'ccf@iptgroup.com.lb'.

Go digital with “IPT e-Voucher”. Forget about cash, magnetic cards and time-consuming paperwork, and start using the e-Voucher which is an innovative fuel payment solution from IPT.

“IPT e-Vouchers” can be issued in different electronic forms and are easy to share (via emails, whatsapp, etc...). In addition to being convenient, they will give you access to IPT’s e-fuel management system where you can securely get reports, statements and official invoices.

** IPT was the 1st oil & gas company to introduce e-Vouchers in Lebanon, and over the years it has become a trusted fuel management solution by many of IPT’s corporate clients.*

Features:

- Can be issued in different formats (digital voucher, serial number, listing...)
- Currency: LBP
- Single-use
- Can be used for fuel or other types of products
- Gives access to a large network of IPT stations... [Read more](#)

World Cleanup Day

Join Us This Saturday to IPT's Upcoming Beach CleanUp Activation

In the occasion of the World CleanUp Day, and for the love of Lebanon and its nature, IPT team is organizing for the 4th year in a row, a cleanup event this Saturday 19 September at Amchit boulevard's beach in collaboration with Amchit Municipality, local institutions and NGOs. [Read more](#)

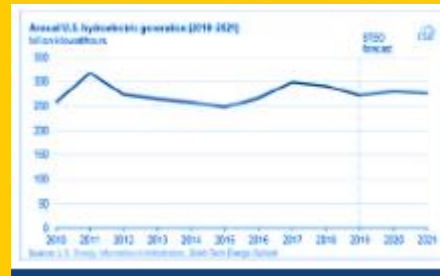

CSR

IPT and CCCL: Riding for A Cause

Beirut's explosion on the 4th of August 2020 lead to the destruction of several hospitals, as well as the displacement of many families with children undergoing cancer treatment. Najla Hallit & Deeb Akkawi wanted to make a difference and decided to raise \$15,000 (the average cost of an antibiotic course for a child) to help the Children's Cancer Center of Lebanon

EIA Expects U.S. Hydroelectric Generation to Increase in 2020 Despite Drought Conditions

Source: EIA

In its latest Short-Term Energy Outlook (STEO), the U.S. Energy Information Administration (EIA) forecasts that electricity generation from hydroelectric power plants in the United States will grow by 4% in 2020 from 2019 levels to 280 billion kilowatt-hours, despite current drought conditions and extensive wildfires...
