

Order your "IPT Diesel" and Be Mindful of Your Carbon Footprint

IPT DIESEL

تدفئة ممتازة
لبيئة أنظف!

للمركبات للمصانع للمنازل

76 733 337 IPT

As we spend more time indoors than usual this year, we should remain mindful of the additional environmental cost of heating.

At IPT, we remain conscious of our carbon footprint and make sure we don't abandon our green habits, even during the crisis. To stay green, **IPT Diesel** not only improves fuel economy but also reduces greenhouse gas emissions. It prevents odors in houses and residential buildings, and it is environmentally-friendly with its green formula that meets the Euro 4 and 5 European standards.

With temperatures dropping again this week and lockdown extended, what better way than staying indoors? Whether you decide to work from home or watch your favorite show next to the sobia or heater, the environmentally-friendly **IPT Diesel** keeps you warm all winter! [Read more](#)

The Global Energy Perspective 2021

Source: McKinsey & Company

Economies worldwide have experienced profound effects of the global health crisis, triggered by widespread public-health responses aiming to control the virus. Energy markets have reflected the uncertainty and shown exceptional movements. At the beginning of the crisis, plunging fuel demand in many key markets was reflected by prices: by the end of March 2020, the price of gas hit a 30-year low, whereas the price of oil, also affected by supply shocks, showed the largest single-day decline in the past 22 years...
