Letter

IPT has proved it's here to stay - we remain ready and glad to serve you at all times.

As our country undergoes exceptional circumstances these days, we are here to make sure it's business as usual for all our customers. Our headquarters, terminals, storage facilities, and our stations, are fully operational to ensure the ultimate customer experience you are used to.

Adapting to change in a critical business environment and surviving crisis is at the core of our top of mind strategy statement. As we keep this goal in mind, you can rest assured our terminals and facilities will remain fully operational and our stations fully open to serve you consistently.

We remain committed to our country during these times of need and optimistic it will emerge a better nation for us. In the meantime, we promise to be resilient as our country has proved to be over the past decades. [Read more](#)

Our Stations

records and countless victories in part to their history, the story of a brand created 50 years ago. Therefore, it transfers the technology developed on the race track to the synthetic motor oils for your vehicle.

Here is what you need to know about the main types of oil: **Mineral-based oil** is simply a heavily refined version of oil sourced from the ground. **Semi-synthetic oil** is a similar substance but with artificial additives, while Purely **Synthetic oil** is essentially man-made and designed oil, made from more advanced refining processes and is of a higher purity and quality than conventional mineral oils.
