### New at Dora Roundabout: IPT Fueling Your Way to the Main City

On the highway going from Dora to the main city of Beirut right under the bridge and near the bus stop you will find our new station. Dora station is managed by IPT, and all its services will be provided there:

- You can fuel your car with the eco-friendly gasoline **Quantum**
- You will find 2 washtubs instead of one so you won't have to wait long to wash your vehicle
- All our cards services are available too: If you are a company, you can benefit from the **GoGas** card to organize your gasoline expenses. For your personal usage, you can go cashless using **IPT Prepaid Fuel Card** to collect points and get rewarded
- etc...

***IPT, near and here for you and your car!*** [Read more](#)

## Premium Products & Services

### Continuous Trainings at the Lubes Department for Better Services

Because providing the best services for our customers is our main concern, we organize continuous trainings for our employees on every product and service available at our stations. A training session for the oil department has been held at the headquarters to refresh their knowledge about the international well-known **Elf** oil characteristics and benefits for the car, and to introduce the **Elf Moto** that will soon be available at our stations. This session is meant to be shared with the networked stations in order to guarantee great services for all IPT costumers. [Read more](#)

## Here For You

### We Celebrate With you All Year Long!

Building a connection with you is as important to us as taking care of your car. Therefore we aim to show you how much we appreciate our relationship with you and how grateful we are for your loyalty by simple and small gestures on all occasions throughout the year on selected IPT

## Energy Sustainability

### Save Energy, Increase Productivity and Build a Sustainable Future

*If you are a company of any kind, you can contribute in creating a better, efficient and sustainable future. By taking small actions you can reduce your usage of energy and be more eco-friendly. Many projects have been implemented in the private and public sector, in the academic sector and in the sector of innovation and entrepreneurship, such as installing solar systems, repairing or replacing inefficient equipment such as desktops by laptops to reduce energy usage, installing energy related green IT software and hardware to guarantee product longevity and reduce IT energy usage, increasing the usage of alternative fuels... stations.

On Valentine's Day, we intended to spread positive energy among our customers so we distributed fortune cookies on some IPT stations that drew big smiles on their faces. The interaction from our customers left its prints in our heart and our social media pages... [Read more](#)
