Ain Ebel: New IPT Station Joining the Family

We expanded to the second largest town in Bent Jbeil district in Nabatiyeh governorate to get closer to you wherever you are. On the main road of Ain Ebel village is situated the newest IPT "Ain Ebel" network station offering you all fine fuel products and services, all in a clean environment while complying with our branding guidelines and of course with the strictest safety measures on all IPT Stations.

The eco-friendly fuel Quantum, exclusively provided by IPT, is available to take care of your engines and decrease your fuel expenses while preserving the southern environment. The station also provides the European IPT Diesel known for its concentrated fuel technology for saving consumption and protecting the environment that conforms to the Euro 4 and Euro 5 standards... Here For You

Stay Updated on the Fuel Prices with IPT and LBCI

IPT partners with LBCI to keep you up to date with the weekly fuel prices changes. Now you can watch the economic segment at the end of Wednesday night news bulletin to know more. Because we know how important it is for you to control your fuel expenditures, we provide you with the best quality of fuel and we keep you aware of the price changes. You can always refer to the ["Fuel Prices" page](#) on IPT website where you can check the history and weekly changes of the local and international fuel prices supported with charts. [Read more](#)

Energy Sustainability

Youth Innovation and Entrepreneurship for a Sustainable Future

Lebanon is encouraged to be a core part of the energy revolution, not just a recipient of imported technologies and applications that assist our shift towards a more sustainable energy system. Therefore, "Youth innovation and entrepreneurship" is a category in the [Energy Awareness Awards \(EAA\)](#) in its second edition. This category targets innovative ideas led by one or group of persons (Lebanese nationals aged between 18 and 29) and / or established startups that can be either a new technology, application, and/or invention that targets the way we use energy and transport.
