## Energy Awareness Awards (EAA)

### EAA 2019: Why is Innovation in Energy a Need for the Future?

*Energy plays a core role in the development of humankind. And the use of alternative sources of energy will reduce cost in the long run. Over the coming decades, the world will consume much more energy than it does today. But, there is a huge population in the world that even lack access to most basic energy services. [Read more](#)*

*If you are a private sector company, a municipality, a University or a technical school, or an entrepreneur and you have an innovation that is making a better future for the humankind, [Apply now](#) to the Energy Awareness Awards....*

related to fatigue driving by combatting it through raising awareness.

Whenever you feel tired or sleepy while driving, drop by the nearest Mountain Mudd Espresso coffee shop or kiosk and have a cup of coffee and know more about what to do to avoid a car crash. [Read more](#)
