It is a European product that improves fuel economy and reduces greenhouse gas emissions resulting in less pollution and less odors emission around houses and buildings. Choose Eco-friendly, Choose IPT Diesel for your water boilers, heaters, and electrical generators. [Read more](#)

Energy Sustainability

IPTEC Putting the Future into Action

IPT Energy center (IPTEC) has been established in 2012 as first-of-its kind in Lebanon, to conduct researches in the fields of oil and gas and energy efficiency. Since then it has been helping IPT in fulfilling its corporate social responsibility in the field of energy conservation and the efficient use of energy, the reduction of environmental pollution resulting from the use of energy sources, and the promotion of the use of clean, alternative and renewable energy solutions.
