Energy Sustainability

IPTEC Participation in IBEF 2018: "Transition Towards Sustainable Transport Solutions"

For the 4th year in a row, **IPTEC** is partnering with the "International Beirut Energy Forum" (IBEF 2018), the yearly forum discussing all topics related to renewable energy and energy efficiency under the title of "Digitalization in Sustainable Energy: Expanding the Investment Frontiers".

In a complementary step to its efforts in the field of energy conservation, **IPTEC** is participating in IBEF this year in a session entitled "Transition Towards Sustainable Transport Solutions", organized in collaboration with the UNDP, MoEW, USEK, and Phoenix Energy. The session will take place on the 26th of September at Le Royal Dbayeh. I will discuss the transition towards a sustainable, clean and energy efficient transport system in Lebanon, and will feature interventions on sustainable transportation, biodiesel production and use, and electric vehicles & solar electric vehicles chargers, among others.
