IPTEC & USEK Signing an MOU on the Installation of a Pilot Plant for the Production of Biodiesel from Waste Cooking Oil (WCO)

The Holy Spirit University of Kaslik (USEK) and **IPT Energy Center (IPTEC)**, with the support of the United Nations Development Programme (UNDP) in Lebanon, signed an MOU to install a pilot plant for the production of biodiesel from Waste Cooking Oil (WCO), on Monday 16 July 2018 at USEK campus in Kaslik, in the presence of USEK President Father Professor Georges Hobeika, **IPTEC** President Dr. Toni Issa, and the Energy and Environment Programme Manager at UNDP Ms. Jihan Seoud. The main objective of this project is to encourage and promote sustainable biodiesel production from WCO by collecting household WCO in storage tanks available at key **IPT gas stations** and at the USEK university campus, and processing it into biodiesel in a pilot plant installed at the USEK campus. Our Stations

New Seaport Station Now Open in Amchit

Today we are pleased to inform you that our new marine station, conveniently located at Amchit seaport, is now open and ready to serve you and fuel your boat with the finest fuel. The station includes 2 pumps making the fueling safe and easy and providing the high-quality "Quantum 95 octane gasoline" and "IPT Diesel" which help keep marine engines running at peak performance. This summer season, you may choose to keep your boat or jet ski in the water. Amchit Marina and IPT are here to serve you, and will be open all summer. [Read more](#)

Mountain Mudd Espresso

The "Happy Hour" Is Finally Here

Mountain Mudd Espresso is home to the best coffee and non-coffee drinks in town, whether hot, cold or frozen. Brought to you from America, Mountain Mudd Espresso is available in a variety of ways: drive-thru kiosks, coffee shops, mobile

Energy Sustainability

IPTEC/USEK Biodiesel Project

Waste Cooking Oils in households and restaurants are being poured into city sewers without knowing the big impact they have on the environment. One Liter of waste cooking oil discharged in sewers can pollute 1 million square meter of sea water. Through USEK - IPTEC Biodiesel production project, people will now be able to dispose of their cooking oils in WCO Collecting Machines at IPT gas stations and USEK campus, to be treated in a mini plant for the production of high-quality biodiesel following these steps: (1) Disposal of WCO at key IPT stations or USEK campus, (2) Quality detection of disposed WCO by the machine. [Download brochure.](#)

shops, and waiting areas inside Bon Appétit convenience stores at IPT stations.

Would you like to grab coffee sometime?

Enjoy "Happy Hour" from 4:00 pm to 6:00 pm at all Mountain Mudd kiosks and coffee shops during the months of July & August. Double Your Pleasure now and **"Get the Large cup size of your Favorite Drink at the price of the Medium size"**. For work meetings or some fun, gather your friends, family, or colleagues, and benefit from this offer. [Read more](#)
