World Energy Outlook 2020 Shows How the Response to the Covid Crisis Can Reshape the Future of Energy

Source: IEA

Amid deep disruption and uncertainty caused by the pandemic, a surge in well-designed energy policies is needed to put the world on track for a resilient energy system that can meet climate goals. It has been a tumultuous year for the global energy system. The Covid-19 crisis has caused more disruption than any other event in recent history, leaving scars that will last for years to come. But whether this upheaval ... [Read more](#)
