### Quantum 98&95: Water Separation Properties

Quantum water separation property is due to its advanced formula which includes a water dispersant that reduces the risks of issues that arise when water is accidentally mixed with gasoline. In fact, Quantum has a built-in demulsifier that effectively disperses water and prevents the formation of emulsions with water. Visit [Quantum 98 & 95](#) page, and Download [brochure](#) to know more.

### Phoenician Ship Made of Plastic Bottles Sails from Byblos To Beirut

A Phoenician-style boat made of plastic bottles embarked Sunday morning from the shores of the Port of Byblos, sailing towards the Port of Beirut, in a novel environmental initiative by the Chreek Society, in cooperation with the Lebanese American University - Byblos Campus and Byblos Municipality. The boat is made of 50,000 plastic bottles, and this initiative aims at drawing attention to the environmental damage caused by non-sorting of waste, especially plastic waste that does not decompose in nature, and reviving the history of Lebanon.
