

Energy You Can Rely On
IPT ENERGY UAE

“ After 50 years of success in Lebanon, IPT entered in 2021 a new stage of development in the region and chose the UAE as the hub for its activities abroad. ”

IPT in Lebanon

Over the past 50 years, IPT has worked closely with community partners and industry leaders in Lebanon and abroad, gaining extensive expertise in energy services and distribution and becoming one of the leading energy companies with a network of over 240 service stations nationwide. With a strong presence in Lebanon, IPT also services hundreds leading corporate clients and factories, as well as homes on a daily basis. Today, IPT is a success story that brings to the forefront more than five decades of experience in the energy sector.

IPT in the UAE

IPT Energy LLC, as IPT Lebanon's arm of expansion, operates locally within the UAE, specializing in diesel and biodiesel distribution, bunkering, lubricants and fuel-oil supply services. Operations are based out of a storage facility in Sharjah. IPT manages its own storage facility and fleet to supply and distribute energy to leading corporate clients across the Emirates. IPT is an authorized distributor of Total Energies Lubricants in the UAE as a continuity to its long-standing partnership with Total Energies in Lebanon.

Our Mission & Vision

To reinforce our position as leading providers of comprehensive and sustainable energy solutions.

We want to diversify sales markets and ensure reliable supply, while maintaining safety, environmental and social responsibility at the heart of our strategic activities.

Our Values

Safety

We seek to deliver efficient, reliable operations sustaining advanced standards of safety

Integrity

We make sure we always do the right thing, even when no one is watching

Sustainability

We work hard to ensure good governance and sustainable operations for our customers, team and community

People

We strive to promote and enable the development of our employees and stakeholders

Agility & Innovation

We aim to adapt swiftly and remain ahead, in the best way possible

Our Sustainability Pledge

IPT voluntarily embraces Environmental, Social, and Governance (ESG) benchmarks as we strive to strategically include UN Global Compact (UNGC) Business Principles in our operations observing ISO 26000 guidelines and confidently targeting sustainability in our management approach reporting 2023 according to the Global Reporting Initiative (GRI) indicators. Our pledge to the Sustainable Development Goals (SDGs), as part of the 2030 Agenda, is furthered by our miscellaneous relevant initiatives across our value chain.

WE SUPPORT

IPT's core contributions through its mission

7 AFFORDABLE AND CLEAN ENERGY

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

11 SUSTAINABLE CITIES AND COMMUNITIES

13 CLIMATE ACTION

Our responsible business approach

15 LIFE ON LAND

17 PARTNERSHIPS FOR THE GOALS

Energy Trading & Distribution

You Can Count On Us For:

Guaranteed Premium
Quality

Reliable, Continuous Service
& On-Time Delivery

Highest Safety Measures
at All Times

Full Range, Owned Fleet with
Accurate Metering

Diesel Gas Oil 10 PPM

- We supply premium quality, 10 parts per million (ppm) low sulfur automotive diesel fuel for high-speed engines, generator sets and other industrial applications. It is a low emission, environmentally cleaner diesel fuel suitable to meet the latest European and American emission standards, allowing the engine to burn more efficiently and reducing operational hazards.
- Our 10 ppm, low Sulfur diesel complies with the **Emirates Authority for Standards & Metrology (ESMA) UAE.S 477:2013 diesel (Gas Oil) specifications.**
- IPT provides a premium diesel 10 ppm delivery service for your operations. We supply bulk deliveries, as well as fuel your fleet at your job-site.

“ Low emission, environmentally cleaner diesel fuel suitable to meet the latest European and American emission standards and complying with the Emirates Authority for Standards & Metrology (ESMA) UAE.S 477:2013 diesel (Gas Oil) specifications. ”

MARINE

Fuel Your Fleet

IPT's Fuel Your Fleet service in the UAE is dedicated to corporates with fleets, trucks, and buses that require diesel fueling. Our mobile tankers eliminate the need of your fleet to line up at gas stations. Instead, IPT will fuel your fleet at your job-site at any time of day, relying on an electronic remote fuel management solution. IPT's Fuel Your Fleet service will improve your operational efficiency, saving you time and additional costs, as well as help you control consumption and prevent fraud.

IPT Terminal

IPT Truck

Your Job Site

Your Fleet

Time Saving & Improved Productivity

- Your fleet will be ready to go at any time, conveniently fueled by IPT's mobile tanker at your job-site.
- You will reduce your fleet's transit time and wait at petrol stations.

Proven Expertise & Highest Standards of Safety

- **Precise Calibration**
We calibrate our tanks and trucks regularly to ensure we deliver the right quantities.
- **Expert Team and Fleet**
Our drivers are Hazmat trained and our mobile tankers comply with Civil Defense requirements to ensure seamless and safe operations on-site.
- **Guaranteed Quality**
Our 10PPM low Sulfur diesel will always comply with international and UAE standards of quality.

Leading, Electronic Fuel Management Solution

- Benefit from Hectronic, the pioneering fuel management solution with Swiss precision and German engineering.
- Monitor your fleet's fueling cycle.
- Set limits and manage fuel consumption across all your fleet.
- Optimize your operations through our dashboard, with access to various reporting tools.
- Connect each truck seamlessly with an RFID tag read by our nozzles, ensuring compliance with your preset instructions.

Save & Optimize Fuel Spending

- Loyalty point system.
- Payment plans available.
- Discounts on longer-term contracts.

“Value, On-Site Fueling
For Your Fleet”

Why Choose IPT?

Flexibility & Customer Service Reliability

- Our storage terminal in Sharjah gives us product security and operational flexibility to fulfill your different requirements.
- Our qualified sales team readily follows your business needs and ensures you are getting premium, customized service to optimize your operations.
- Our fleet is fitted with GPS tracking and monitored by a centralized control room around the clock, ensuring security and timeliness of deliveries.

Quality Assurance

- We constantly calibrate our tanks and our meters by internationally renowned third party companies, ensuring supply accuracy on every delivery.
- We test all our products with leading laboratories to guarantee quality before every customer delivery.
- We will help evaluate your current energy set-up to adapt and upgrade it, ensuring quality throughout your operations.

Health & Safety Expertise, From Our Terminal to Your Job-Site

- Our storage terminal is fully digitized and is equipped with the highest standard, continuously pressurized firefighting system.
- Our tanks are made to reduce flammable risks; they are equipped with foam chambers that eliminate the fuel-air contact, water rings that cool nearby tanks, and water monitors in case of fire outside the tanks area.
- Our terminal operators have been trained to correctly respond to any case of emergency, including fires, earthquakes, accidents and injuries that require first aid. To ensure the capability and readiness of our staff at all times, surprise maneuvers and drills are frequently done on site.
- Our tankers are approved by Civil Defense and comply with all safety requirements set by UAE authorities.
- Our drivers hold “HAZMAT License” in handling Hazardous Material and “Defensive Driving Certificate” approved by Civil Defense in Dubai.

“ A clean, green, renewable fuel that helps your company reduce its carbon emissions while maintaining operational efficiency. ”

Biodiesel

IPT partnered with Neutral Fuels, the largest producer of biofuel in the Gulf region, to provide you with premium biodiesel, a clean, green, renewable fuel that helps your company reduce its carbon emissions while maintaining operational efficiency.

B100 PURE 100% NET ZERO BIOFUEL

This is Neutral Fuel's net zero biofuel, guaranteeing maximum carbon savings and engine life benefits. Pure net zero biofuel has the highest environmental impact and is best used in closed loop systems, such as restaurants, food chains, and conference centers.

B20 NET ZERO BIOFUEL

As for blends, the most popular biofuel is called B20. It is a blend of 20% net zero biofuel with regular ultra-low sulfur diesel. It is mostly suitable for fleet managers and energy system brokers.

B5 NET ZERO BIOFUEL

The B5 blend is the entry level net zero biofuel. It's mostly used by construction companies and vehicle fleets with a minimum requirement to meet emissions reduction goals. It's a great fuel that extends the life of the engine, while taking a first step in reducing the environmental impact of your business.

Total Energies Lubricants

We supply premium lubricants for automotive and industrial use,
as part of the partnership agreement between Total Energies and IPT.
Our wide range includes:

**HYDRAULIC
OIL VERY HIGH
PERFORMANCE
ANTI-WEAR
HYDRAULIC OILS**

It's designed for use in all kind
of hydraulic systems running
under the most difficult
conditions, such as in machine
tools, mould injection machines,
presses and other industrial or
mobile equipment.

**ENGINE OIL
VERY HIGH
PERFORMANCE
LUBRICANT**

It's suitable for engines of
earthmoving, construction
or mining machinery from
worldwide origins.

**GEAR OIL
MINERAL OILS FOR
ENCLOSED GEARS**

Excellent extreme-pressure and
anti-wear properties. Good seal
compatibility. Very good resistance
to oil oxidation and degradation.
Outstanding protection to rust
and corrosion of copper alloys.
Very good resistance to foaming
and emulsion formation.

**GREASE OIL TRUE
MULTI PURPOSE
GREASE**

Formulated for lubrication of loaded
slide-ball, and roller-bearings,
wheelbearings, universal joints, chassis,
and various shock loaded or vibrating
applications equipment, operating in wet,
dusty and/or dry conditions. Suitable
as general purpose grease for industrial
applications requiring a NLGI 2 grade.

COOLANT

It is a very long-life coolant based on
monoethylene glycol and organic inhibitors
of corrosion. COOLELF AUTO SUPRA °37-C
is ready for use, as it is already mixed with
demineralised water.

Hydraulic Oil – AZOLLA ZS 68/ 46

Very high-performance anti-wear hydraulic oils. Designed for use in all kind of hydraulic systems running under the most difficult conditions, such as in machine tools, mould injection machines, presses and other industrial or mobile equipment.

Engine Oils – RUBIA WORKS 15 1000W40

Very high-performance lubricant suitable for engines of earthmoving, construction or mining machinery from worldwide origins.

Engine Oils – RUBIA TIR 15 7400W40

Mineral lubricants suitable for on-road diesel engines recommended to Euro 3 and previous engines of most European and American manufacturers. It is also adapted to Euro 5 and previous engines of some manufacturers with appropriate oil drain intervals.

Grease – MULTIS EP 2 / MULTIS EP 3

Multi purpose extreme pressure lithium/calcium grease. Multis EP 2 a true multipurpose grease, formulated for lubrication of loaded slide ball, and roller bearings, wheel bearings, universal joints, chassis and various shock loaded or vibrating applications in transport, agriculture and off road equipment, operating in wet, dusty and/or dry conditions.

Coolant – COOLELF ECOBS GR – 37 / COOLELF ECO BS GR – 26

Ready to use coolant. OAT – Organic Additive Technology. Coolelf Eco BS GR is a highcost-efficient OAT ready to use engine coolant providing frost and corrosion protection.

ADBLUE

Adblue is a %32.5 aqueous urea solution, recommended in the exhaust gas pollution removal process using SCR technology.
