

Firefighting, Evacuation and First Aid Training at IPT Headquarters

Based on the annual safety training plan and in its continuous efforts to maintain the high standards of Health and Safety in its operations, IPT organized for its employees the **Firefighting, Evacuation and First Aid Training sessions at IPT Headquarters in Amchit**, dividing them into small groups to respect social distancing during the pandemic.

The training was performed by the Safety team and [QHSE](#) Department (Quality, Health, Safety and Environment) in coordination with the civil Defense following 5 main objectives:

- Create a safety mental health awareness to be applied not only in the work environment but also in everyone's daily life.
- Protect employees as a first step as well as company's assets and premises.
- Take action according to the ERP (Emergency response plan) following the master safety hazards yearly plan.
- Follow a continuous training empowered by theoretical and practical maneuvers based...[Read more](#)

Beirut River Solar Snake: Lebanese Center for Energy Conservation

Source:Energy Globe

The Beirut river solar snake is the first grid-connected pilot photovoltaic plant in Lebanon. Spanning 10,000 m² above the Beirut river bed, the 1 MWp photovoltaic plant supplies green energy to the national network of the Lebanese electric utility Electricité du Liban (EDL) and will ensure the energy needs of around 10,000 households. The project has created an enormous momentum in the solar market in Lebanon, which has witnessed a remarkable increase by an... [Read more](#)
