IPT Stations Under the Snow!

With the cold reaching its peak recently in Lebanon, snow and cold weather don't keep people off the road. In fact, IPT Gas Stations always operate during extreme weather conditions, provide an easy and safe space for customers to enter the facilities, fill their vehicles, make convenience purchases, and get back on the road. [Read more](#)

If you're locked down up in the hills, check which station is closest to you for a better accessibility through our [Station locator](#).

IPT, takes the chance to thank the Civil Defense for providing all Lebanese wherever they are 24-hour emergency services in reaching their destinations safely!

IPT Diesel: Because The Weather is Calling for Warmth!

You've certainly put winter tires on your car, and you've pulled out your coats and gloves... but your home heating system is prepared for what's to come??

Living in town or in mountain, using sobia or heater, or even for your boiler, you know that winter weather is no laughing matter. You and your family could be put at risk if your heat breaks down in the middle of a winter storm.

Don't get left in the cold! [Read more](#)

Elf: Oil Change Tips During Lockdown

Your car is an important asset to you, especially these days during the lockdown. That's why you need to keep it running with optimal performance. In fact, an oil change makes the engine run smoother. Even though most of us are driving less lately due to the lockdown, we should manage to keep a preventive maintenance schedule. All you need to do is to continue changing oil...[Read more](#)

Revival 2021

An Alternative Economic Revival Plan

Updated Dec 2020

An Alternative Economic Revival Plan 2021- Oil & Gas

Source: InfoPro

Lebanon is lagging behind neighboring countries in exploiting its potential natural gas and oil resources. Initial offshore drilling of the first exploration well in 'Block 4' carried out by French oil firm Total found traces of natural gas but didn't prove the existence of a gas reservoir. It has, however, confirmed the existence of the basic elements of a geological-oil system. Data gathered from 'Block 4' will be used to improve the analysis accompanying exploration work in 'Block 9'. Total, which leads a consortium that includes Italy's ENI and Russia's Novatek...[Read more](#)
