Protecting You Everyday

#محطة_آمنة

Since the beginning of the COVID-19 pandemic, we've been taking full precaution measures to ensure a safe work environment for IPT stations' employees and customers.

Relevant precautionary guidelines have been launched with a daily routine check monitored by IPT (QHSE team) to be implemented at all its stations.

At IPT, we ensure the proper implementation of wearing masks, gun thermometers daily check, hand gel utilization, etc... We also increased the usage of sanitized sprays to clean and disinfect frequently touched objects and surfaces by proper detergents. [Read more](#)

IPT Safety Life Cycle

Safety Management System defines all activities required during the Safety Lifecycle phases that are necessary in achieving the required level of operational Safety. IPT management and safety lifecycle planning is fundamentally important because it provides the framework for achieving systematic integrity based on the yearly master plan of safety hazards implemented in all IPT premises. Functional safety depends primarily on the prevention and elimination of systematic failures, and that can only be achieved through effective management and safety... [Read more](#)

Latte Art

Oreo and Toffee Nut Lover? Enjoy the best of both worlds!

It's Smoothies and Frappé season! Latte Art's "Half & Half" combines the best flavors in one drink: Toffee Nut and Oreo! Rich, buttery sweet toffee notes, combined with the warmth of toasted nuts and Oreo, blended with espresso and velvety steamed milk. What better combination can you wish for? [Read more](#)
