## ELF SPORTI TXI

ELF TECHNOLOGY

By complying with the new ACEA 2012 standard, ELF EVOLUTION engine oils can:

- ✔ Protect engine parts against wear and deposits
- ✔ Reduce sludge formation
- ✔ Improve compatibility with biofuels and fuels with high sulfur contents even in cold and extreme conditions

The Elf brand features complete ranges of products that have been optimised or reformulated in order to meet the most recent ACEA performance levels.

\*ACEA: Association des Constructeurs Européens d'Automobiles (European Automobile Manufacturers' Association). As of 2014, ACEA comprises: PSA Peugeot Citroën, Renault, BMW, Volkswagen, Daf, Daimler, Fiat Chrysler, Ford, Hyundai, Iveco, Jaquar Land Rover, Toyota, Volvo Car Corporation, Volvo Group, Opel.
